Dear Sir/Madam

Hednesford Neighbourhood Plan - Consultation REG 16

Thank you for your consultation on the above dated 09/02/2018

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England is a statutory consultee in neighbourhood planning and must be consulted on draft neighbourhood development plans by the Parish/Town Councils or Neighbourhood Forums where they consider our interests would be affected by the proposals made.

**Natural England does not have any specific comments on this draft neighbourhood plan.**

However, we refer you to the attached annex which covers the issues and opportunities that should be considered when preparing a Neighbourhood Plan. Taking into account the parish's location and the content of the draft plan you may wish to consider the following documents, all of which offer 'context' information for your parish's plan:

- [Cannock Chase Special Area of Conservation \(SAC\) Partnership](#) – Information for developers and applicants on residential development

Additionally we support policy ROW 1 – Access and Policy OS1 - Open Spaces which will help to protect the natural environment assets within Glentworth, improve access to nature. We would however suggest that either these policies or a separate policy covers the issue of Green Infrastructure (GI) and emphasises more strongly the opportunity to make GI links within new developments at the earliest stages of the planning process. For further details on Green Infrastructure please see Annex 1

We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.

For any queries relating to the specific advice in this letter please contact Felicity Bingham on 02002 259357. For any new consultations, or to provide further information on this consultation please send your correspondences to [consultations@naturalengland.org.uk](mailto:consultations@naturalengland.org.uk).

Yours sincerely

Felicity Bingham

# Annex 1 - Neighbourhood planning and the natural environment: information, issues and opportunities

## Natural environment information sources

The [Magic](http://magic.defra.gov.uk/)<sup>1</sup> website will provide you with much of the nationally held natural environment data for your plan area. The most relevant layers for you to consider are: **Agricultural Land Classification, Ancient Woodland, Areas of Outstanding Natural Beauty, Local Nature Reserves, National Parks (England), National Trails, Priority Habitat Inventory, public rights of way (on the Ordnance Survey base map) and Sites of Special Scientific Interest (including their impact risk zones)**. Local environmental record centres may hold a range of additional information on the natural environment. A list of local record centres is available [here](#)<sup>2</sup>.

**Priority habitats** are those habitats of particular importance for nature conservation, and the list of them can be found [here](#)<sup>3</sup>. Most of these will be mapped either as **Sites of Special Scientific Interest**, on the Magic website or as **Local Wildlife Sites**. Your local planning authority should be able to supply you with the locations of Local Wildlife Sites.

**National Character Areas (NCAs)** divide England into 159 distinct natural areas. Each character area is defined by a unique combination of landscape, biodiversity, geodiversity and cultural and economic activity. NCA profiles contain descriptions of the area and statements of environmental opportunity, which may be useful to inform proposals in your plan. NCA information can be found [here](#)<sup>4</sup>.

There may also be a local **landscape character assessment** covering your area. This is a tool to help understand the character and local distinctiveness of the landscape and identify the features that give it a sense of place. It can help to inform, plan and manage change in the area. Your local planning authority should be able to help you access these if you can't find them online.

If your neighbourhood planning area is within or adjacent to a **National Park** or **Area of Outstanding Natural Beauty (AONB)**, the relevant National Park/AONB Management Plan for the area will set out useful information about the protected landscape. You can access the plans on from the relevant National Park Authority or Area of Outstanding Natural Beauty website.

General mapped information on **soil types** and **Agricultural Land Classification** is available (under 'landscape') on the [Magic](http://magic.defra.gov.uk/)<sup>5</sup> website and also from the [LandIS website](http://www.landis.org.uk/index.cfm)<sup>6</sup>, which contains more information about obtaining soil data.

## Natural environment issues to consider

The [National Planning Policy Framework](https://www.gov.uk/government/publications/national-planning-policy-framework--2)<sup>7</sup> sets out national planning policy on protecting and enhancing the natural environment. [Planning Practice Guidance](http://planningguidance.planningportal.gov.uk/blog/guidance/natural-environment/)<sup>8</sup> sets out supporting guidance.

Your local planning authority should be able to provide you with further advice on the potential impacts of your plan or order on the natural environment and the need for any environmental assessments.
