Prior to consideration of the application representations were made by Mrs. Richards and Mr. Simms who were both objecting to the application.

RESOLVED:

That the application be refused for the following reasons:

The proposal would introduce a development which would be for 8 flats in an area of predominantly lower density housing. Consequently, the proposed development would be an intensive form of development, which would be out of character with the surrounding area, which mainly comprises houses and bungalows. As such, the proposal is contrary to Local Plan Policy H5.

3. Details of the proposed paths and steps.

He also advised that on Enclosure 6.54 of the report there was a correction: Informative (i) needs to refer to correct conditions requiring off-site highway works.

RESOLVED:

That the application be approved subject to the conditions contained in the report for the reasons stated therein and to the following additional conditions:

1. The development hereby permitted shall be constructed in accordance with the approved plans and once completed no additional development shall be carried out (permitted development) without an express grant of planning permission from the Local Planning Authority.

Reason: The Local Planning Authority considers that such development

would be likely to adversely affect the amenity of neighbouring occupiers and the character of the area. It is considered to be in the public interest to require an application to enable the merits of any proposal to be assessed and to ensure compliance with Local Plan Policies B8: Design Principles of New Built Development and DCP5: Car Parking Dwellings.

2. Notwithstanding the approved plans, details of the proposed shop fronts shall first be submitted to and approved by the Local Planning Authority. Thereafter the approved details shall be installed and retained for the life of the development.

Reason: In the interest of visual amenity.

3. Notwithstanding the details shown on the approved plans the "steps" to the southeast of the bus shelter shall be relocated clear of the land to be retained as public highway in accordance with details first to be submitted to and approved in writing by the Local Planning Authority prior to the commencement of development. The steps shall thereafter be provided in accordance with the approved drawings.

Reason: In order to comply with the NPPF.

4. No part of the development hereby approved shall commence until a scheme detailing the external environment-landscape, including planting, fencing, walls, paths, bins, surface treatment & construction details for the site has been submitted to and approved by the Local Planning Authority. The details shall be in the form as specified in Annex C of the Supplementary Planning Guidance 'Trees, Landscape and Development'.

Consideration was given to the Report of the Development Control Manager (Item No. 6.68 – 6.72 of the Official Minutes of the Council).

RESOLVED:

That the recommended comments as set out in Section 4 of the report be the agreed response to the consultation subject to the following additional comment being included:

“The Council is concerned about how the Council/Government will be able to comply with its obligations as a “competent authority” under the Conservation of Habitats and Species Regulations 2010 if the proposed changes are approved –whereby if a consent, permission or authorisation for a “plan or a project” is given it can only be approved where the competent authority have ascertained that there will be no adverse effect on the Cannock Chase SAC. There appears to be no mechanism for the Council to require an applicant to enter into a Section 106 Unilateral Undertaking in accordance with the Councils’ interim policy to make a financial contribution to mitigate the impact on the SAC of £450 per dwelling in the 0-8 kilometre zone and £300 per dwelling in the 8-15 kilometre zone.”
