- 5.2 The supporting Locality Partnership Plan (LPP) is the annual documents that set out how the Council and Partners will achieve progress against the strategic objectives of both the Council and Local Strategic Partnership (LSP); the plan establishes the actions, performance measures and timetables for delivery that are the basis of the Local Strategic Partnerships (LSP) quarterly and annual performance reporting framework.

Partnership Calendar Proposal	Cannock Local Policing Team Cannock Chase Council	There was a proposal to develop a partnership calendar of action, whereby partners allocate a day a month to focus on a priority/ issue in the district. Examples posed were Child Sexual Exploitation and Modern Day Slavery.	<p>Discussions have taken place and it is apparent that the resources required to deliver awareness training for one day every month render the proposal unfeasible.</p> <p>Despite this, Staffordshire Police have provided awareness training around Child Sexual Exploitation for partners locally and an external agency have also provided training locally with regards to Modern Day Slavery.</p> <p>The Police and Partnership Team shall ensure all partners are aware of any training opportunities that arise in the area that may be appropriate.</p> <p>Moving forward, new and emerging threats shall be brought to the Community Safety Hub as and when they arise, with appropriate action being taken/awareness training organised to ensure partners are aware of the associated signs/risks etc.</p> <p>The Let's Work Together Scheme also raises Partners awareness of key issues.</p>	June 2016
