Resident Sub Group meeting feedback

Discussion had taken place regarding the funding of the triage vehicle used for mental health instances. Jodie to check if funding is in place. Di Malkin from Staffs Police is attending the next residents meeting and can be asked for an update.

Question raised where local issues can be taken. These issues can be taken to the local PCSO or 101.

The panel felt that they had been tolerated in the past. They hope to feel more engaged now with more support from the OPCC.

Data Champions sessions are not happening as they should. Jodie will investigate as data is the starting point for choosing priorities.

Moving towards the future Jodie suggested that any priorities that the panel wished to scrutinise be sent to the OPCC with evidence as to why the panel felt they were a priority. This will then enable the OPCC provide specific support. Priorities and evidence can be sent to the OPCC via Jan Matthews

Panel members expressed their sincere thanks to Lesley Harrison - Chair of the panel for all her hard work and support.
