The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Council. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

# Key matters

## Factors

### Sector wide issues

- MHCLG has amended regulations to extend the deadline for publishing audited local authority accounts from 31 July to 30 September for a period of two years. At the end of this period, MHCLG will review whether there is a continued need to have an extended deadline.
- CIPFA/ LASAAC have announced deferral of IFRS 16 for local authorities to 1 April 2022.
- The FRC thematic reviews published have identified areas for improvement which are relevant to local government in regard to IFRS 15 (revenue from contracts with customers), cash flow statements and the financial reporting effects of COVID-19

### Impact of COVID-19 pandemic

- The impact of COVID-19 has been unprecedented on service provision, and the Council have seen a reduction in revenue from discretionary fees and charges.
- Property markets remain volatile in 2020/21 due to the ongoing impact of the pandemic.
- The forecast outturn for the Council is £14,652 which is £1,474k above the budget of £13,177k. The additional costs are primarily due to COVID-19 which were taken into account in the budget report taken in February 2021 which approved a revised 2020/21 budget for portfolios of £14,892k.
- Several COVID-19 measures implemented in 2020/21 will need consideration in order to determine whether there is income and expenditure to be recognised in the CIES.

### Other Local issue

- We noted that, following the resignation of the council's Managing Director, there were changes within the council's leadership team during the year. Specifically, the Deputy Managing Director was designated Head of Paid Service and appointed as Interim Managing Director. The Chief Accountant (also the Deputy S151 Officer) was appointed to undertake the role of interim Head of Finance and Interim Section 151 Officer. We will continue to work with the new Managing Director and interim S151 Officer to complete the 2020/21 external audit

## Our response

- We will work flexibly in partnership with officers to endeavour to deliver to the revised statutory deadlines.
- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work, as set further in our Audit Plan, has been agreed with the Head of Finance.
- We will consider your arrangements for managing and reporting your financial resources as part of our work in completing our Value for Money work. This will specifically consider the impact of COVID-19.
- Our work on grant funding will establish whether new sources of revenue received in the period have been accounted for appropriately on a principal or agent basis, conditions have been met and income is classified correctly.
- We have identified an increased incentive and opportunity for organisations in the public sector to manipulate their financial statements due to increasing financial pressures. We have identified a significant risk in regards to management override of control – refer to page 5
- The Council's valuer reported a material uncertainty in regards to the valuation of properties in 2019/20 due to the Covid 19 pandemic. We identified a significant risk in regards to the valuation of properties – refer to page 6.
- We are in ongoing dialogue with management in regard to new, innovative developments such as subsidiary companies and will consider these from a Value for Money and accounting perspective

# Introduction and headlines

## Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Cannock Chase District Council ('the Council') for those charged with governance.

## Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Cannock Chase District Council. We draw your attention to both of these documents.

## Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit and Accounts Committee); and
- Value for Money arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Audit and Accounts Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

## Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of controls
- Valuation of land, buildings and council dwellings
- Valuation of net pension liability

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

## Materiality

We have determined planning materiality to be £1.2m (PY £1m) for the Council, which equates to approximately 2% of your prior year gross expenditure (cost of service). We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £0.06m (PY £0.06m).

## Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money have identified the following risk of significant weakness:

- Financial planning & sustainability

## Audit logistics

Our interim visit took place in April and our final visit will take place over the summer. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report. Our audit approach is detailed in Appendix A.

Our audit fee is currently under discussion with management and our regulators. Our final prior year audit was £57,148, subject to final variations for approval by PSAA. We anticipate that this will be uplifted as a result of additional Value for Money requirements, changes to auditing standards in relation to estimates and operational challenges stemming from remote working conditions during the pandemic to £61,624.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

# Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions (rebutted)	<p>Under ISA (UK) 240, there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p> <p>As external auditors in the public sector, we are also required to give regard to Practise Note 10, which interprets the ISA in a public sector context and directs us to consider whether the assumption also applies to expenditure.</p>	<p>Having considered the risk factors set out in ISA 240 and the nature of the revenue streams at the Council, we have determined that the risk of fraud arising from revenue and expenditure recognition can be rebutted, because:</p> <ul style="list-style-type: none"> <li>- there is little incentive to manipulate revenue and expenditure recognition</li> <li>- opportunities to manipulate revenue and expenditure recognition are very limited; and</li> <li>- the culture and ethical frameworks of local authorities, including Cannock Chase District Council, mean that all forms of fraud are seen as unacceptable.</li> </ul> <p>Therefore we do not consider this to be a significant risk for Cannock Chase District Council.</p>
Management override of controls	<p>Under ISA (UK) 240, there is a non-rebuttable presumed risk that management override of controls is present in all entities. The Council faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>- Evaluate the design effectiveness of management controls over journals;</li> <li>- Analyse the journals listing and determine the criteria for selecting high risk unusual journals;</li> <li>- Test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration;</li> <li>- Gain an understanding of the accounting estimates and critical judgements applied by management and consider their reasonableness with regard to corroborative evidence; and</li> <li>- Evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.</li> </ul>

# Significant risks identified (continued)

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of land and buildings (PPE)	The Council revalues its land, buildings and council dwellings on a rolling five-yearly basis.	<p>We will;</p> <ul style="list-style-type: none"> <li>- Evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work;</li> <li>- Evaluate the competence, capabilities and objectivity of the valuation expert;</li> <li>- Write to the valuer to confirm the basis on which the valuation was carried out to ensure that the requirements of the CIPFA code are met;</li> <li>- Challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding;</li> <li>- Test revaluations made during the year to see if they had been input correctly into the Council's balance sheet;</li> <li>- Evaluate assumptions made by management for assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value at year end.</li> </ul>
Valuation of council dwellings	<p>This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved (approximately £193m of council dwellings and £60m land &amp; buildings in the prior period) and the sensitivity of this estimate to changes in key assumptions.</p> <p>Additionally, management will need to ensure the carrying value in the Council financial statements is not materially different from the current value of the fair value (for surplus assets) at the financial statements date, where a rolling program is used.</p> <p>We have therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	
Valuation of the net pension liability	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund liability is considered a significant estimate due to the size of the numbers involved (£61.7m as at 31 March 2020) and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatements.</p>	<p>We will:</p> <ul style="list-style-type: none"> <li>- Update our understanding of the processes and controls put in place by management to gain reasonable assurance that Council's net pension liability is not materially misstated and evaluate the design of the associated controls;</li> <li>- Evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work;</li> <li>- Assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation;</li> <li>- Assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability;</li> <li>- Test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary;</li> <li>- Undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and</li> <li>- Obtain assurances from the auditor of Staffordshire Pension Fund as to the controls surrounding the validity and accuracy of membership data, contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.</li> </ul>

# Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

## Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit and Accounts Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

# Accounting estimates and related disclosures

## Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings and investment properties
- Depreciation (and useful economic lives of assets)
- Fair value of financial instruments (investments)
- Valuation of defined benefit net pension liabilities

## The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

## Item No. 7.9

### Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;
- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

### Planning enquiries

As part of our planning risk assessment procedures we have made enquiries of management via our Informing the Risk Assessment report which we use as a vehicle for updating our understanding of the Council's controls framework. We will present this as a separate report and ask that the Committee review and approve the report to ensure we have a consistent understanding of the Council's arrangements.

### Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540\\_Revised-December-2018\\_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

# Other matters

## Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
  - giving electors the opportunity to raise questions about your 2020/21 financial statements, consider and decide upon any objections received in relation to the 2020/21 financial statements;
  - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
  - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
  - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

## Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

## Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate.

Applying such an approach should enable us to increase our focus on wider financial resilience (as part of our VfM work) and ensure that our work on going concern is proportionate for public sector bodies. We will review the Council's arrangements for securing financial sustainability as part of our Value for Money work and provide a commentary on this in our Auditor's Annual Report (see page 12).

# Materiality

## The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

## Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £1.2m (PY £1.2m), which equates to approximately 2% of your prior period gross cost of services. We design our procedures to detect errors in specific accounts at a lower level of precision which we have determined to be £100k for senior officer remuneration owing to the sensitive nature of these disclosures.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

## Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £60K (PY £60K).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit and Accounts Committee to assist it in fulfilling its governance responsibilities.

## Prior year gross operating costs

£60m Council

■ Prior year gross operating costs

## Materiality

£1.2m

Council financial statements materiality (PY: £1.2m)

£0.06m

Misstatements reported to the Audit and Accounts Committee (PY: £0.06m)

# Value for Money arrangements

## Revised approach to Value for Money work for 2020/21

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of Value for Money. (VFM)

There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary qualified / unqualified approach to VFM conclusions, with far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

The Code require auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out below:

### Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

### Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

### Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

# Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed in the first table below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.

## Risks of significant weakness

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

### Financial planning and sustainability

The impact of Covid-19 could be significant for the Council and that the future models of funding in Local Government are uncertain. The Council's financial plan covers a period of 2020/21 to 2023/24 and is forecasting efficiency requirements each year to achieve a balanced budget and therefore faces significant challenge in the medium term.

### Risk response

In response to the risk identified, we will perform further work to understand:

- How the Council ensures that it identifies all the significant financial pressures that are relevant to its short and medium term plans
- How the Council plans to bridge its funding gaps and identifies achievable savings
- How the Council plans finances to support sustainable delivery of services
- How the Council ensures its financial plan is consistent with other plans; and
- How the Council identifies and manages risks to financial resilience

## Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

### Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

### Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

### Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

## Avtar Sohal, Key Audit Partner

Avtar leads our relationship with you and takes overall responsibility for the delivery of a high quality audit, ensuring the highest professional standards are maintained with a commitment to add value to the CCGs.

## Aamar Hussain, Audit Manager

As the engagement manager, Aamar is responsible for overseeing delivery of our service and managing the audit process in respect of the Council. He will be in hand to answer any queries, whilst ensuring an efficient audit process.

## Harkamal Vaid, Audit Incharge

Hark will work with relevant officers and our operational team to ensure the smooth planning and delivery of the audits. She will oversee the day to day running of the audit and discuss any issues with you during the audit process as well as any questions you may have throughout the year.

## Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

## Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

# Audit fees

In 2018, PSAA awarded a contract of audit for Cannock Chase District Council to begin with effect from 2018/19. Our final prior year audit was £57,148, subject to final variations for approval by PSAA. . Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2020/21 audit.

As referred to on page 12, the 2020/21 Code introduces a revised approach to our VFM work. This requires auditors to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach. Auditors now have to make far more sophisticated judgements on performance, as well as issue key recommendations if any significant weaknesses in arrangements are identified during the audit. We will be working with the NAO and other audit firms to discuss and share learning in respect of common issues arising across the sector.

The new approach will be more challenging for audited bodies, involving discussions at a wider and more strategic level. Both the reporting, and the planning and risk assessment which underpins it, will require more audit time, delivered through a richer skill mix than in previous years. This is in line with increases we are proposing at all our local audits.

Additionally, across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as noted in the number of revised ISA's issued by the FRC that are applicable to audits of financial statements commencing on or after 15 December 2019, as detailed in Appendix 1.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting. Our proposed work and fee for 2020/21 is still in discussion with management and regulators – for reference, we set out 2019/20 and 2018/19 fees below.

	Actual Fee 2018/19	Actual Fee 2019/20	Proposed fee 2020/21
Cannock Chase District Council Audit	£44,624	£57,148	£61,624
Total audit fees (excluding VAT)	£44,624	£57,148	£61,624

## Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

## Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

# Audit fees – detailed analysis

Scale fee published by PSAA	£40,124
<b><i>Ongoing increases to scale fee first identified in 2019/20</i></b>	
Raising the bar/regulatory factors	£2,500
Enhanced audit procedures for Property, Plant and Equipment	£1,750
Enhanced audit procedures for Pensions	£1,750
<b>Audit fee 2019/20 (net of additional 19/20 specific Covid 19 surcharge and other one-off fees)</b>	<b>£46,124</b>
<b><i>New issues for 2020/21</i></b>	
Additional work on Value for Money (VfM) under new NAO Code	£9,000
Increased audit requirements of revised ISAs	£6,500
<b>Proposed increase to agreed 2019/20 fee</b>	<b>£15,500</b>
<b>Total audit fees (excluding VAT)</b>	<b>£61,624</b>

# Independence and non-audit services

## Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

## Other services

The following other services provided by Grant Thornton were identified. The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
Certification of Housing Benefits Subsidy Claim	15,500	Self-Interest (because this is a recurring fee)	The level of these recurring fees taken on their own are not a significant threat to independence as the fee for this work is £18,000 in comparison to the expected total fee for the audit of £57,000. Furthermore these fees are not significant relative to Grant Thornton UK LLP's turnover overall; these are also fixed fees and there are no contingent elements to it. These factors all mitigate the perceived self-interest threat to an acceptable level.
Certification of Housing Capital receipts grant 2019/20	2,500	Self-Interest (because this is a recurring fee)	
Total	18,000		

# Appendix 1: Revised Auditor Standards and application guidance

## FRC revisions to Auditor Standards and associated application guidance

The following Auditing Standards and associated application guidance that were applicable to 19/20 audits, have been revised or updated by the FRC, with additional requirements for auditors for implementation in 2020/21 audits and beyond.

	Date of revision	Application to 2020/21 Audits
ISQC (UK) 1 – Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and other Assurance and Related Service Engagements	November 2019	
ISA (UK) 200 – Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing (UK)	January 2020	
ISA (UK) 220 – Quality Control for an Audit of Financial Statements	November 2019	
ISA (UK) 230 – Audit Documentation	January 2020	
ISA (UK) 240 – The Auditor’s Responsibilities Relating to Fraud in an Audit of Financial Statements	January 2020	
ISA (UK) 250 Section A – Consideration of Laws and Regulations in an Audit of Financial Statements	November 2019	
ISA (UK) 250 Section B – The Auditor’s Statutory Right and Duty to Report to Regulators of Public Interest Entities and Regulators of Other Entities in the Financial Sector	November 2019	

# Appendix 1: Revised Auditor Standards and application guidance continued

	Date of revision	Application to 2020/21 Audits
ISA (UK) 260 – Communication With Those Charged With Governance	January 2020
