

Community Safety Delivery Plan 2021/22

Introduction

Community Safety Partnerships (CSPs) are statutorily responsible for reducing crime and disorder, substance misuse and re-offending in their local authority area. The local Strategic Assessment, produced by the Strategy Team at Staffordshire County Council and the Research and Analysis Unit at Staffordshire Police, informs the CSP of its priorities, whilst the Community Safety Delivery Plan sets out what the CSP is doing to address these issues.

The specific Strategic Priorities for Cannock Chase's CSP for 2021/22 are:

- Anti-Social Behaviour (ASB)
- Domestic Abuse and Stalking & Harassment
- Community Cohesion & Tackling Extremism
- County Lines
- Vulnerable Persons and Contextual Safeguarding

Although the following are not considered a main priority for Cannock Chase as the issues present in a similar way to the force-area overall, they are recommended for additional consideration due to their volume, impact on communities and level of public expectation:

- Serious violence; Public-place violence and late-night alcohol-related violence
- Repeat and Persistent Offending

In addition, there are some challenges which, while not necessarily overly present in the partnership area, require the work of the whole partnership to address. It is important for each partnership to consider how they can contribute to the force-wide approach and strategy. These challenges are highlighted as:

- Modern Slavery
- Fraud
- Fire and Risk of Fire
- Business Crime
- Serious Violence

In addition to the above, Cannock Chase’s CSP operates under the umbrella of the Police, Fire and Crime Commissioner for Staffordshire’s (PFCC) Community Safety Priorities. These are:

- **Early Intervention and Prevention:** Addressing root causes wherever possible and shifting the focus of investment from acute to early help services. Intervening early to identify and support those most vulnerable to experiencing crime and helping those who have started experiencing problems by supporting them to address the issues that they face.
- **Supporting Victims and Witnesses:** Being a victim of crime can be truly damaging and have a lasting impact on feelings of safety and well-being. It is essential to ensure that victims (both individuals and businesses) and witnesses have access to prompt and appropriate support, and that it is as easy as possible for victims and witnesses to access such support.
- **Managing Offenders:** Preventing offending and reducing the likelihood of re-offending by delivering early intervention activities such as targeted education. Diverting those involved in minor offences, particularly the most vulnerable, away from unnecessary contact with the criminal justice system through triage processes and diversion schemes. Helping those motivated to change to reintegrate successfully into the community and achieve stable lifestyles away from crime.
- **Public Confidence:** Making individuals and communities feel safer and reassured. Ensuring that the people of Staffordshire are better informed and involved in how policing and community safety arrangements are delivered, helping thereby to increase public confidence, build trust through transparency and open communication, and reduce the fear of crime.

Action	Responsible Officer	Agencies involved	Priorities Met	Target date
CSP to chair and manage the multi-agency Community Safety Hub (CSH), ensuring that all key crime/vulnerability issues and emerging trends which are affecting the community, and individuals, are tackled.	Oliver Greatbatch: Community Safety and Vulnerability Officer, Cannock Chase Council. Karla Vowles: Senior Partnerships Officer, Cannock Chase Council.	Adult Social Care.
