

Annual Estate Inspections

Estate Inspections

Putting our best foot forward!

Introduction

The Neighbourhoods Team at Cannock Chase Council is committed to working with residents to maintain and improve our housing estates. Estate Inspections are a key part of our work, helping us to identify problem areas that arise and deal with them more quickly, before they get too big.

What is the aim of the Estate Inspections

Members of the Neighbourhoods Team and partners together with tenants and residents work to improve the estate where you live. Suggestions on how to improve and combat issues on your estate can also be made by participants. Problems are identified and dealt with as soon as they occur, we will then monitor and provide feedback on the performance of our grounds maintenance contractors where appropriate.

When do the Estate Inspections happen

Your local Neighbourhoods Officer will carry out an estate inspection on your estate once a year between the months of April to October. Check out the programme for your Neighbourhood area to see the month when your estate will be inspected.

How can you get involved

All residents are invited to join us on the Estate Inspections and they are a great way for you to get involved in helping to improve your area. If you join us, you can show us any areas of concern you may have and tell us about any areas for future improvements you think there are. Local Councillors, Police and other partner agencies will also often join the inspections.

How the rating for your estate is worked out

Each estate inspection will produce an action sheet. Specific issues and improvements identified will be recorded. Actions raised will be passed to the relevant responsible department to rectify. After each estate inspection, the estate will be scored on the number of issues and improvements identified. We consider issues such as tenancy breaches, untidy gardens, general repairs, vandalism, litter, graffiti, abandoned vehicles, hard landscaping (such as fencing, walls, and paving) and soft landscaping (such as trees, grass, shrubs and communal areas).

This score will then be turned into a rating.

The rating allows us to monitor the changes in the condition of the estate over time.

Rating	Description
A	The estate is in an excellent condition with very few issues
B	The estate is in a good condition with a limited number of issues
C	The estate is in an average condition with numerous issues outstanding
D	The estate is in a below average condition with a large number of issues

See the Results

Details of the Estate Inspection results can be found on the Council's website or by contacting the **Neighbourhoods Team**.

To join your Estate Inspection

To join your Estate Inspection and for more details on start times and meeting places, talk to your **Neighbourhoods Team** on **01543 462621** or email us at **EMTeam@cannockchasedc.gov.uk**
