

Cannock Chase Council Grants 4 Growth GRANT DECLARATION

As of the 4 January 2023, the UK Subsidy Control Act came into force. This replaces the previous arrangements of the Trade & Co-operation Agreement (TCA) and, prior to that, EU State Aid. With the withdrawal from the EU, the EU State Aid regulations no longer apply to the UK (except for some limited exceptions regarding the Northern Ireland Protocol & Structural Funds).

As a result of the Subsidy Control Act 2022 (“the Act”), any financial assistance from the public sector towards businesses and/or trading operations is strictly controlled.

The Act restricts how the Council can provide grants/ financial assistance to businesses/trading operations and imposes strict limits.

The Council must consider the subsidy control principles of the Act before making a subsidy. However, the Act allows grants or financial awards of up to £315,000 per enterprise in a three-year period (current and two previous financial years). Financial awards to enterprises up to £315,000 are deemed “Minimum Financial Assistance”.

Applicants are required to complete this declaration in order to make an application for grant funding. As part of the declaration applicants must state the full amount of aid, they have already received from any public source, and in any format, over the last 3 financial years. Please note that this is a change from the requirements of previous regulations. Please be explicit in your explanation of what the aid you received has been used for. You should include financial assistance from all public sources.

The following is not a comprehensive list of the possible forms of aid. However, it should give an indication of the most common forms of aid which you may have been given over the past three years. Potentially, any assistance from a public body might be an aid. Should you have any doubts on this matter, please contact the body from which the assistance was received:

- Grants from public bodies
- Loans from public bodies at favourable rates
- Loan guarantees from public bodies.
- Differential tax benefits
- Grants from an investment trust (including charities) which may themselves have received the funds from a public body.
- Grants from a part publicly funded venture capital fund
- Publicly administered funds, even if the funds were originally not public such as the national lottery.
- Landfill tax / Purchase of public land or property at a less than market rate.
- Waiving or deferral of fees or interest normally due to a public body such as the waiving or deferral of rent or waiver of interest normally due on late payment of taxation or other costs to a public body
- Monopoly licences or guarantees of market share.
- Advertising via a public channel such as a tourist board or state-owned television
- Consultancy advice provided either free or at a reduced rate.
- Training provided either free or at a reduced rate.
- Aid for investment in environmental projects
- Provision of a free or reduced rate feasibility study for research and development or other assistance with research and development
- Benefiting from the provision of infrastructure where your company/business was pre-identified as a beneficiary.
