Appreciate the trees in the carpark	1
Wish more land was dedicated to ornamental flowers or trees but understand why the land has been designated in such a way	1
Like the outdoor gym equipment	1
Hope that the maintenance will be considered and keepers given appropriate support	1
Looks ambitious and will be an improvement to current layout	1
Hopefully removing 'older kids' equipment will deter them from coming - will they have provision elsewhere	1
Concern around siting of café being close to road entrance - could it be close to the back so safer for younger children	1
Is the bowling green being refurbished and used?	1
Existing building between football pitches and rose gardens would be ideal spot for indoor/covered seating	1
Good to see improvements being made	1
At the top of old penkridge road there is a yellow line that extends past the red line. I believe this is a tpo area. It seems that this is being built on with a mobile home already in place?	1
Is this in the budget	1
Could the climbing frame have more sturdy transfers - not nets	1
Could there be a bike park	1
Would like a tube slide	1
Wanted a proper bouncy seesaw with a spinning cup	1
Phase 1: more authoritarianism, big brother is always watching. Phase 2: include a basket swing and community area/events	1

Please make sure it happens	1
Good idea	2
Thank you for considering provisions for the young people of our area. I feel they are often overlooked	1
Think it would be great	1
Please fix the bunkers pretty please	1
LED at 5m high is going to be quite intrusive and polluting. Please reconsider, thanks	1

Just ensure café is built and park is for all ages	1
Could money be used or diverted to a number of smaller local parks that young people can easily access rather than a central "masterplan". Providing accessible locations will increase socialisation of our youngsters	1
