Fri 2 Jan 2026	Open

* Reception and telephone lines open until 3pm on New Year's Eve

Hednesford Valley High School hosted the Cannock Chase Can Cooks programme this summer, delivered by Dr. Sunni Patel as part of Cannock Chase Council's health and wellbeing campaign with Inspiring Healthy Lifestyles.

Over six weeks, 10 students and their families took part in hands-on cooking sessions designed to promote healthy eating and strengthen family connections. Each week introduced a new recipe with surprise ingredients, encouraging participants to try new flavours and broaden their skills.

The programme's impact reached beyond the classroom; families recreated dishes at home.

The school has expressed interest in hosting further workshops, recognising the value of promoting nutritional awareness, family wellbeing, and pupil engagement. The final session introduced the concept of growing your own produce, aligning with the school's vision to begin developing its outdoor space to offer students hands-on opportunities in food cultivation.

SHOP
LOCAL

As it gets colder, looking after our wellbeing matters more than ever. Shorter days and chilly weather can make it harder to stay active - but the Cannock Chase Can App is here to help.

FREE to download, the app offers wellbeing challenges, from gentle walks and family games to mindfulness and nutrition tips, it's a simple way to stay motivated this winter.

This season's "Naturally Well" theme encourages residents to connect with nature. Even a short walk can lift your mood and boost your health.

 Cannock Chase Can

Castle Ring

Join the Centenary Bingo Adventure

Castle Ring, Cannock Chase's highest point and one of its most iconic heritage sites, marks 100 years this November since it was first officially designated a **Scheduled Ancient Monument in 1925 to protect its historical importance.**

This ancient Iron Age hillfort offers breathtaking views and a deep connection to local history. Whether you're tracing the footsteps of history or simply enjoying the fresh air, Castle Ring remains a symbol of our shared heritage and natural beauty.

Download the **FREE** app and start your adventure today!

To mark the centenary, Cannock Chase Can has launched the Castle Ring Centenary Bingo Trail, a fun and interactive challenge for all ages. Using the **FREE** Cannock Chase Can App, participants can explore Castle Ring and collect 10 landmark locations to complete a digital bingo card and unlock a reward.

This fun, family-friendly challenge combines local heritage with outdoor wellbeing - perfect for keeping active this winter.

Inspiring Young Minds

with the Great Imagining Staffordshire

Schools across Staffordshire have embraced The Great Imagining Staffordshire - a creative learning programme designed to spark imagination, critical thinking, and futures literacy in young people.

Delivered by The House of Fairy Tales and supported by Cannock Chase, Stafford Borough, and Lichfield District Councils, the initiative helps pupils explore climate, ecology, and creativity through engaging Thinking Kit topics and hands-on projects.

Students at **Churchfield Primary School** took part in the Healthy Food, Body and Planet programme. Their work is featured below, showcasing the impact of imagination and environmental learning.

From Veggie Plates to Planet Power

Churchfield Primary School

Churchfield Primary School's Year 2 pupils took part in a new food education pilot delivered by Dr. Sunni Patel as part of The Great Imagining Staffordshire programme, the four-week workshop helped 23 pupils explore how food choices affect their bodies and the planet.

The children designed their own healthy dishes, learned about food miles and carbon footprints, and discovered how to spot nutritious options using the traffic light system. The highlight? A hands-on cooking session where pupils prepared and presented their creations - many trying new foods for the first time.

With glowing feedback and strong engagement, Churchfield is keen to build on the success of the summer pilot by continuing its focus on sustainability and healthy living. It's clear these young learners are already making a big impact - one healthy bite at a time.

The Great Imagining is a creative education programme designed to inspire young people to imagine and build a greener, fairer, and wiser future. Through hands-on workshops, community events, and school-based activities, it encourages children to explore big ideas around climate change, sustainability, and wellbeing. The Healthy Food and Planet Workshop Pilot at Churchfield Primary is one of many exciting projects helping to bring this vision to life across Staffordshire.

Most pupils said they now plan to eat more fruits and vegetables and make healthier choices.

All resources are **FREE** - making it easy for schools to get involved.

Chase Matters Residents Magazine

FOOD Waste Recycling

We will be introducing a new weekly food waste collection service, in line with government requirements from Spring 2026. We will collect your food waste on the same day that we collect your other waste and recycling.

coming soon

We will provide each household with:

1 A roll of liners to use in the light grey kitchen caddy

2 A small light grey kitchen caddy to go in your kitchen on your countertop

Containers will be delivered to your home together with instructions on how to use them.

3 A larger light grey outdoor caddy, that acts as your bin for crews to collect.

How to use your caddies:

1 Use the liners in the kitchen caddy to collect your food waste.

2 When full, tie a knot in the liner and transfer it to the outdoor caddy.

3 Put your outdoor caddy at the kerbside with your bins on collection day.

Please place your outdoor caddy in front of other bins so it can be seen by the crews.

You'll be able to recycle ALL your food waste:

✓ Bread, cakes, pastries, rice and pasta

✓ Dairy products, such as eggs, eggshells and cheese

✓ Meat and fish, raw or cooked, including bones

✓ Raw / cooked vegetables and fruit

✓ Coffee grounds and Tea bags

✓ Any mouldy and out of date food

✓ All uneaten food and plate scrapings

DO NOT put these materials in your caddy:

- ✗ Any material that is not food waste.
- ✗ Liquids such as milk, oil or liquid fat
- ✗ Packaging of any kind

Why should I use the new service?

Food waste recycling is good for the environment and collected weekly it makes more room in your green bin.

The new food waste caddy will have a lockable lid, which keeps out pests, keeps in smells and limits the degradation of food reducing flies.

Separating your food waste into your caddy can change your shopping/ eating habits and result in cost savings.

Where does my waste go?

Your food waste will be taken to our local anaerobic digestion plant

It is used to generate natural forms of energy such as biogas, which is an excellent alternative to fossil fuels and produces fertiliser for farming.

More information will follow in the new year.

Christmas and New Year Collection Changes

REMINDER

No brown bin collections from 29 November until w/c 12 January 2026 (permits only).

Blue bin/bag collections*

Green bin collections*

*There are collection changes over the festive period. Please check below.
