

## Core Composter Range

### Blackwall Compost Converter 220 and 330 litres

Market-leading blow moulded compost bin with windproof secure push-fit lid and removable side hatch. Guaranteed 10 years.

Made from 100% recycled post consumer HDPE, mostly collected from UK kerbside collections. UV stable.

The Compost Converter is the UK's biggest selling composter with more than 3 million unit sales to date and forms the main choice for the WRAP/ESPO composting campaigns.

**Both sizes available in Black and/or Green.**

Capacity	Width (mm)	Height (mm)
220 litre	740	900
330 litre	800	1000

### Blackwall Compost Converter Base Plate

This Base Plate was specifically designed for use with the Blackwall 220 and 330 litre Compost Converters and can be used to place the compost bin on to solid surfaces.

It will also benefit compost production by increasing ventilation, as well as improving drainage and restricting access by vermin.

The 830mm diameter base fits both sizes.

## Flat Pack & Specialist Composters

### Thermo-King Composter 600 & 900 litres:

The Thermo-King offers outstanding insulation due to its Thermolen® walls, providing the ultimate in heat retention for the composting process. It also features an optimised ventilation system for maintaining the ideal temperature. Supplied flat packed with easy to follow instructions, requiring no additional tools.

Available in green colour only – made from recycled plastic, UV stabilised.

Twin windproof lids and two access hatches.

Capacity	Width (mm)	Depth (mm)	Height (mm)
600 litres	800	800	1040
900 litres	1000	1000	1000

Base plate also available.

### Wooden Modular Composter

Features sliding panels for easy access to compost and uses a solid wood design to prevent compost from drying out and breaking down unevenly.

Made from solid wood sourced from FSC sustainable forests and treated with non-toxic wood preservative.

Capacity	Width (mm)	Depth (mm)	Height (mm)
480 litres	900	900	750
905 litres	1200	1200	750

Lid & Extension Modules also available as an optional extra.

### Compost Tumbler

The Compost Tumbler is ideal for rapid composting, especially for large quantities of grass cuttings. Rotating the Compost Tumbler weekly aerates the mixture and reduces the composting time to as little as 21 days.

Drum supported on a 5 piece galvanized steel and aluminium metal frame. Drum manufactured from HDPE 100% recycled plastic. UV stabilised.

Capacity	Width (mm)	Diameter (mm)	Height (mm)
180 litres	770	750	750

## Food Waste Composters & Wormeries

### Can-O-Worms 3 Tier Wormery

Starting their work in a single tray, worms will eat scraps 24/7 as you gradually add tray-after-tray full of kitchen waste. They burrow through some tiny holes in each tray-base - leaving behind them that superb, rich, nutritious compost your garden will adore. By the time they reach the top section, your lower level will be ready for harvest. Also produces liquid feed fertiliser.

Supplied as a kit with all component parts included.

Capacity	Width (mm)	Height (mm)
70 litres	500	730

Also available

### Can-O-Worms 2 Tier Wormery

Works as above, using one less tray and a reduced number of worms.

Capacity	width (mm)	Height (mm)
45 litres	500	660

### Blackwall Twin Pack Bokashi Bin

Allows 100% home composting to be achieved by tackling the elements of organic waste that cannot be put into a traditional composter.

All food waste can now be turned into nutrient rich compost. This includes meat, fish and dairy products as well as cooked foods. Easy to use, simply add your food waste and a handful of Bokashi Bran and seal the air tight lid.

Made from 12% recycled plastic. Body and drain plate include EM ceramics.

Enables continuous composting, leave one to ferment while you fill the other.

Capacity	Width (mm)	Depth (mm)	Height (mm)
18 litres	320	250	370

Twin Pack contains:

- 2 x Bokashi Bins each with carry handle, air tight lid and drainage tap
- 2 x Inner drain tray
- 1 x Scoop/Liquid drain cup
- 1 x Push tool
- Full instructions
- 1kg of Bokashi bran (3 - 4 months' supply)

**Replacement Bokashi Bran also available in 1kg and 3kg packs.**

## The HotBin –

The HotBin "hot composts" all year to recycle your food and garden waste faster. You can expect rich compost every 90 days without forking or tumbling as the HotBin maximises the right conditions to make hot composting easy.

The HotBin comes complete with the following:

- Thermometer in lid to keep an eye on the temperature
- Airtight lid to reduce smells and unwanted visitors
- Aeration valve plate to moderate temperature
- Biofilter unit to stop any unfriendly smells
- Aeration base plate to disperse air within the bin
- Easy to remove hatch door panel to take out mature compost
- Cam belt straps to pull the hatch tight so waste is not visible
- How to use guide
- 25 litre bag of bulking agent to use if recycling food waste
- Internal thermometer for tracking temperature during setup
- Raking stick
- Winter 'kick start' heater or 'hot water bottle'

Capacity	Width (mm)	Depth(mm)	Height (mm)
HotBin Mini 100 litres	450	450	1125
HotBin Mk2 200 litres	550	550	1145

## Green Johanna 330 litre Compost Bin

A hot-composter, the Green Johanna recycles garden and food waste (even cooked food, bones, meat and fish) into natural organic compost.

Designed and manufactured in Sweden, the Green Johanna produces excellent quality compost, fully broken down into a moist, nutrient rich soil.

Simply fill the Green Johanna with two layers of food waste to every one layer of garden waste.

Capacity	Diameter (mm)	Height (mm)
330 litres	900	950

## Green Cone 80 litre Waste Digester

The Green Cone is a completely natural system that reduces your food waste to its natural components of water, carbon dioxide and a small residue.

This solar-heated unit takes ALL cooked and uncooked food waste including meat, fish, bones, dairy products, vegetables and fruit.

The waste is digested rather than composted and is primarily reduced to water. This nutrient rich water enters the soil under the base of the digestion unit. There is no need to turn waste over like in a traditional composter.

Also provided is a natural accelerator powder to speed up the digestion process in cold weather and at start up.

Capacity	Diameter (mm)	Height (mm)
80 litres	700	590

## Composting Accessories

### Straight 5 litre Kitchen Caddy

Features a wide landscape opening ensuring food waste goes into the caddy and not on the worktop.

The close-fitting lid contains moisture and odours within the caddy. A convenient carry handle allows the caddy to be taken to the Kerbside Caddy or home composting bin for simple waste disposal.

Capacity: 5 litre

Colour: various

### Straight 23 litre Caddy

The 23 litre Caddy has been specifically developed for the collection of food waste from the kerbside. The tough, durable construction and hinged locking lid makes this caddy ideal for outdoor use.

The textured sloped base also provides a useful tipping handle when emptying, assisting hygienic collections.

Capacity: 23 litre

Colour: Various

### Caddy Liners

The liner is breathable meaning that the moisture content of the food waste decreases and in turn reduces the weight of the material for collection by as much as 30%. Liners will fully compost into water, carbon dioxide and a negligible quantity of biomass.

Compost-a-Bag® liners are both compostable and biodegradable and are accredited to EN13432.

**Small - fits caddies 5-7 litre**

**Large – fits caddies 23 litre**

**26 bags per roll.**

### BeGreen 500ml Compost Maker

Dilute and add to the contents of a compost bin to accelerate the composting process.

This product is organic and non-harmful to children or pets.

Size: 500ml

### Compost Aerator

Allows the contents of a compost bin to be mixed and lifted with ease. Speeds up the composting process.

Made from recycled plastic.

Length 750mm

## Garland Compost Sieve

Homemade compost tends to contain large pieces of material that have not yet fully broken down; these can be easily removed using a compost sieve.

Our sieve combines the quality of steel with the utility of a plastic body.

Plastic moulded body with a tough galvanised steel diamond mesh moulded into the bottom. Mesh holes are 9 x 5mm.

## Composting worms 125g

Top up your composter or wormery with these excellent Yorkshire worms.

Composting worms are a natural and efficient method of turning kitchen waste and small amounts of garden waste into nutrient-rich compost and a concentrated liquid fertiliser.

Eating at least half their own body weight per day worms make excellent composters, they are easy to keep, easy to maintain and the end product is one of nature's finest fertilisers.

Whether topping up a wormery or putting in a composter, these worms are ideal and better suited than most garden earth worms.

Packaged for a safe and healthy delivery

## Water Butts & Accessories

### Cloudburst Water Butt Kit

With a 200 litre capacity, this recycled plastic, woodgrain-effect water butt kit is ideal for the average family home. It also includes a stand to give access to fill a watering can and a Rain Diverter Kit to collect all the rainwater that falls onto the roof of your home.

Available as a kit which includes rain diverter, tap and stand.

Capacity	Diameter (mm)	Height (mm)
200 litres	680	1216

**Double kit available**

### Mini Rainsaver Kit

Ideal where space may be at a premium. At just 15" wide fits into the smallest space in a garden or yard. This sleek design has made this water butt one of the most popular slim line water butts in the UK.

The Mini Rainsaver water butt comes complete with a tap.

Available as a kit which includes rain diverter and stand.

Capacity	Diameter (mm)	Height (mm)
100 litres	380	940

**Double Kit available**

### Rainwater 500ml Refresh Liquid

Added to your water butt this safe non toxic treatment keeps the stored rainwater free from algae, scum and unpleasant odours.

The treated water is safe to use in the garden.

It will not harm children, pets or wildlife.

### Water Butt Link Kit

Use this handy linking kit to connect any two water butts together and save double the amount of rainwater.

**Kit includes: 500mm flexible hose and two threaded connectors with nuts and washers.**
