

## Wellington Drive Play Area

The survey was promoted via the following methods:

- The council's website
- The council's social media
- Longford Primary School
- Flyers distributed to local residents

There were only 11 responses received. The results are below:

Q1 Do you like the new design for the play area?

Yes	No	No reply
9	1	1

Q2 Please share any comments you have on the design of the new play area

- We like the idea of having something sensory (mound land trail) however we are concerned about anti social behaviours that it may create as we live opposite the site
- A lot of residents on the estate walk their dog on this field and throw balls. Maybe you could have a gated area for this.
- The playground still looks relatively small
- Good for the area but speeding is a concern
- My son is very pleased about the 5 aside football pitch. As a family, we are so pleased that the current park which, due to it's demise and sad/tired appearance, we refer to as 'the park of doom' is finally being updated. There are so many families locally that will benefit from this and will be a place where my daughter will be able to meet and play with local children (we moved into the area just after covid and she has not managed to make any local friends).
- We like the wildflowers and tall grasses.
- Brilliant, much needed in the area, will be fantastic for locals. Maybe exercise.
- I like to walk around that area with my dog. Can you please provide lots of benches in all the areas. Can you also provide extra bins. I like to pick the litter up as I am walking around the field. It would be good to provide a bin at the entrance of the field. This is so I can do a full lap with the dog then put the litter i find during my walk in the bin before I leave the field.
- Is the football pitch going to be an all weather pitch ,if not will the local authority ensure it is cut regularly to allow it to be used properly. Are the new items of play equipment going to be eco friendly and made of wood . What is being done to ensure the brook is properly fenced off as water running through appears at time to contain sewage too. It states better access is to be created for such things as pushchairs will it also be secure enough to prevent travellers entering the park as they have done on several previous occasions. It is not a large park area and although I know dog walkers will not be banned but could signs regarding dog fouling be erected and bins put at both ends.
- Ensure childrens safety. No dogs allowed
- Not sure of the impact of people who live opposite

Q3 Is there any equipment that you would like to see included in the design of the new park?

- Inclusive/accessible equipment (2)

- sensory equipment suited to primary aged children
- seating (3)
- gate big enough for mobility scooters to fit through without needing keys
- Toddler climbing frame/ slide, toddler swing
- Skate/ bike ramps/ area
- For all age groups 5 to 13
- CCTV
- Big slides, bowl spinner, challenging climbing frame (to suit older children), spiderweb swing. The equipment on the pye green stadium parks are fantastic so anything from there would be great
- Bins
- different sized equipment for different age groups
- Swing, slide
- Ensure child safety from busy road!
- Maybe exercise equipment,.
- All round playing area for football, cricket, basketball, rugby
- Will there be any adult equipment?
